MKS Inc. Notes to Consolidated Financial Statements

(U.S. dollars, thousands, except per share data)

MKS Inc. ("MKS" or the "Company") is a provider of software products and services in the application development and deployment (software "Application Lifecycle Management" or "ALM", formerly "Software Configuration Management") and cross-platform development and systems administration ("Interoperability" or "IO") markets. The Company's products are designed to increase development team productivity while improving the quality, reliability and availability of business critical software as it is developed and maintained, and to significantly cut development costs and time to market while enabling enhanced performance.

1. Significant accounting policies:

a) Basis of presentation:

The accompanying consolidated financial statements of MKS Inc. ("MKS" or the "Company") as at January 31, 2007 and for the three and nine month periods ended January 31, 2007 and 2006 are unaudited and have been prepared in accordance with generally accepted accounting principles in Canada for interim financial information, using the same accounting policies and methods of application as used in the April 30, 2006 financial statements. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation, have been included. The results for the interim periods presented are not necessarily indicative of the results that may be expected for any future period. The following information should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report for the year ended April 30, 2006.

b) Stock based compensation:

The Company accounts for stock options granted under the provisions of the CICA Section 3870, "Stock-based Compensation and Other Stock-based Payments" for its employee stock based compensation plans. As permitted by this standard, the Company did not adopt the provisions in respect of the fair value method of accounting for all of its employee stock based compensation. Accordingly no stock based compensation expense was recorded during fiscal 2002 and fiscal 2003 on stock option grants to employees, as the exercise price of options granted under the Company's stock option plans was equal to the fair market value of the Company's Common Shares at the date of grant. In the event stock options were awarded to non-employees, the Company recorded compensation expense based on the fair value of the options.

During the current fiscal year, the fair value of option grants were estimated using the Black-Scholes option pricing model with the following assumptions: risk free interest rate of 4.40% (January 31, 2006 – 4.2%), dividend yield of 4.5% (January 31, 2006 – nil%) and expected lives of options of five years and expected volatility as specified in the following table below.

In accordance with CICA recommendations, the following pro forma disclosures present the compensation cost for the Company's stock option plan had compensation cost been determined and recorded in the consolidated statement of operations during the periods ended January 31, 2007 and 2006, based on the fair value at the grant date of the options awarded on or after May 1, 2002.

Rent expense for the three and nine months ended January 31, 2007 and 2006 was \$414, \$363, \$1,213 and \$1,297, respectively. These amounts are net of sublease income of \$nil, \$29, \$9 and \$340 for the three and nine months ended January 31, 2007 and 2006, respectively. The Company is also responsible for certain common area costs at its various leased premises.

MKS Inc.
Notes to Consolidated Financial Statements
(U.S. dollars, thousands, except per share data)

b) Product warranties:

The Company's standard warranty covers a 30-day period and warrants against substantial nonconformance of the Company's software to the published documentation at time of delivery. The Company has not experienced any material returns where it was under obligation to honor this standard warranty, and as such, there is no warranty provision recorded in the consolidated financial statements.

The Company's software license agreements generally include certain provisions for indemnifying customers against liabilities if the Company's software products infringe a third party's intellectual property rights. To date, the Company has not incurred any material costs as a result of such indemnification and has not accrued any liabilities related to such obligations in the consolidated financial statements.

5. Shareholders' equity:

a) Share capital:

	January 31 2007	April 30 2006
Common shares:		
Authorized – unlimited		
Issued and outstanding – 50,562 (April 30, 2006 – 49,969), no par value	\$ 61,408	\$ 60,474

Preferred shares:		
Authorized – unlimited, issuable in series		
Issued and outstanding – nil	–	–
Total share capital	\$ 63,660	\$ 62,141

The Preferred Shares are non-voting, unless dividends are in arrears, and rank in priority to the Common Shares in respect of the payment of dividends and as to the distribution of assets in the event of liquidation, dissolution or wind-up of the Company.

b) Transactions:

Nine months ended January 31, 2007: The Company issued 593 Common Shares to employees on the exercise of stock options for aggregate proceeds of \$788.

Fiscal 2006: The Company issued 1,097 Common Shares to employees on the exercise of stock options for aggregate proceeds of \$1,276. The Company issued 6,927 Common Shares on the exercise of special warrants for aggregate proceeds of \$3,774.

c) Stock option plans:

The Company's stock option plans are intended to encourage ownership of the Company by directors, officers and employees of the Company and its subsidiaries. The maximum number of Common Shares which may be set aside for issuance under the plans is 11,663 shares, provided that the Board of Directors of the Company has the right, from time to time, to increase such number subject to the approval of the shareholders of the Company when required by law or regulatory authority. The maximum number of Common Shares that may be reserved for issuance to any one person under the plans is 5% of the Common Shares outstanding at the time of the grant. Generally, options issued under the plans vest annually over a four year period. Any option granted which, for any reason, is cancelled or terminated prior to its exercise, will again become available for grant under the plans. In accordance with the plans, the exercise price of options is determined based on the fair value of the Company's Common Shares at the date of grant.

Options granted under the plans may be exercised during a period not exceeding seven years from the date of grant, subject to earlier termination upon the optionee ceasing to be a director, officer or employee of the Company or any of its subsidiaries, as applicable. Options issued under the plans are non-transferable.

- g) Employee Share Purchase Plan:

On September 26, 2006, the Company's shareholders approved an Employee Share Purchase Plan (ESPP) in order to encourage the Company's employees and directors to invest in its shares. The ESPP allows participants to contribute a specified percentage of their base salary, generally through payroll deductions, for the purposes of purchasing shares in the Company from treasury. The ESPP provides for quarterly purchases to be at the share's market value at the time of purchase less 15%. To January 31, 2007, no shares have been issued under the ESPP.

6. Research and development expenditures:

	Three months Ended January 31		Nine months Ended January 31	
	2007	2006	2007	2006
Gross research and development expenditures	\$ 2,834	\$ 2,500	\$ 8,494	\$ 7,022
Less: Investment tax credits realized	—	—	(330)	—
Net research and development expenditures	\$ 2,834	\$ 2,500	\$ 8,164	\$ 7,022

The Company qualifies for certain refundable investment tax credits related to its research and development activities. As required under Canadian GAAP, these investment tax credits have been accounted for as a reduction of the Company's research and development expenditures.

7. Earnings (loss) per share:

Basic and diluted earnings (loss) per share are calculated as follows:

	Three months Ended January 31		Nine months Ended January 31	
	2007	2006	2007	2006
Net income (loss)	\$ (1,203)	\$ 1,207	\$ (2,322)	\$ 1,736
Basic weighted average number of shares outstanding	50,550	46,210	50,401	43,833
Incremental shares from assumed exercise of stock options and warrants	—	5,451	—	5,969
Diluted weighted average number of shares	50,550	51,661	50,401	49,802
Earnings (loss) per share:				
Basic	\$ (0.02)	\$ 0.03	\$ (0.05)	\$ 0.04
Diluted	\$ (0.02)	\$ 0.02	\$ (0.05)	\$ 0.03

For the three and nine months ended January 31, 2007, stock options and warrants outstanding were not included in the calculation of diluted loss per share because the Company had a loss for those periods and to do so would have been anti-dilutive.

8. Segmented information:

The Company evaluates operational performance based on two operating segments: software Application Lifecycle Management (ALM) and Interoperability (IO). The segments are managed separately because each requires unique marketing strategies and is exposed to different economic environments. The ALM segment develops and markets software solutions that assist programmers in the creation of traditional and Web-based software, and in the management of the software development process. The IO segment encompasses products that address the issues surrounding cross-platform development, application migration, systems administration and network management.

It is the Company's policy to price internal sales or transfer values for services on an equivalent basis as that used for external pricing.

The following schedule provides required segmented information disclosure.
